Election Rigging? Trump Assassination Plots? Free Trade? It's the British!

“England, not Russia, is the culprit in a real foreign election interference story, as the leaked Stateside plans of an advisory group with close ties to Prime Minister Keir Starmer show.” – Racket News, October 21, 2024

“When representatives of the British government previously sought to go door-to-door in America, it did not end well for them. This past week marked the 243 anniversary of the surrender of British forces at the Battle of Yorktown, a military victory that ensured that the United States would be politically independent of Great Britain. It appears that the Labour Party and the Harris for President campaign have forgotten that message.” Complaint Against the Labour Party of the United Kingdom and Harris for President, filed before the Federal Election Commission on behalf of the Trump campaign, October 21, 2024.

Our Republic has had one enemy throughout its nearly 250 years of existence: the British Empire. We here at Promethean Action have documented this and continue to be the leading website spotlighting ongoing imperial perfidy here. That Empire, still led by the world's oligarchs, has masked itself in many forms, most recently, under the trade name, “globalism.”

Now, with last week's revelations from Racket News about blatant British Labor Party attempts to rig the presidential election and destroy Elon Musk, the mask is off yet again and the fundamental battle between two systems, the American and British systems, is joined.

The Trump-crafted 2024 Republican Party Platform, which returns the party to its roots, as the party of industry, manufacturing, infrastructure and workers was the patriots' opening salvo. Donald Trump's passionate embrace of tariffs is another critical weapon. Elon Musk's bold initiative to explore and develop the solar system, reaping whole new discoveries and technologies benefiting humanity completely transforms the battlefield.

Promethean Action has produced a pamphlet, entitled, “What Donald Trump Can Do with the American System 2.0” which develops more deeply the principles behind these initiatives. Trump's revival of the American System allows nations to be sovereign, economically and politically, and to build powerful economies leaving the war mongering globalist financier elite (as Donald Trump has called them) in history's gutter.

The British Aren't Coming, They've Been Here All Along

- **Election Interference:** Racket News revealed that the British Prime Minister's Chief of Staff is actively campaigning for Kamala Harris here in the U.S. He also founded the British Center for Countering Digital Hate, now working with Democrats in Congress to "kill Musk's Twitter" and free speech, according to their internal documents. They are part of the British inspired apparatus, known as the Transition Integrity Project, which rigged the 2020 election and planned a post-election military coup to drive Trump from office.
- **Assassination Threat:** The Russiagate/impeachment campaigns against Donald Trump's first Presidency and the current ongoing assassination threat are British Intelligence operations like the British directed assassinations of John Kennedy, William McKinley (Trump's "tariff mentor") and Abraham Lincoln, the father of the Republican Party of workers and producers.
- **Free Trade:** The destruction of the industrial economy of the United States, under free trade and environmentalist policies have "Made in the British Empire," written all over them. Our founders rejected the free trade system in favor of Hamilton's new American System, which Donald Trump now embraces. On October 15th, at the Economic Club of Chicago, Donald Trump informed Bloomberg Editor and ardent free trader John Micklethwaite (Commander of the British Empire) that he and other experts had been wrong about virtually everything.

With the new alliance of Donald Trump, J.D. Vance, Robert F. Kennedy Jr, Tulsi Gabbard and Elon Musk, we're finally positioned to write a new chapter in the wonderful story which began in 1776, if Trump secures the overwhelming mandate now in reach on November 5th. But that victory will only be secured if patriots fully understand the nature of our imperial enemy which we here at Promethean Action continue to track, monitor, and expose. Join us in securing this victory. Sign up to fight alongside us today.
